

Disclosure to Massachusetts Students

COST OF PROGRAM

The estimated total charges for completing the Master of Construction Management program are: \$32,809.

GRADUATION RATE AND GRADUATION TIME

Massachusetts law defines “Graduation Rate” as the number of students who received certificates or degrees in their program during the last two calendar years, divided by the number of students who enrolled in the same program during the latest two calendar years. Please note that the number of enrolled students used to calculate “Graduation Rate” under Massachusetts law includes students who are at the start of their program and have not yet completed what is required to graduate.

Massachusetts law defines “Graduation Time” as Median Completion Time. “Median Completion Time” is the median duration of attendance in months, rounded to the nearest month, of all students who obtain a certificate, diploma, or degree from a program during the latest two calendar years.

The following chart represents the 2017-18 Graduation Rate and Graduation Time, as defined by Massachusetts law, for NewSchool programs with Massachusetts graduates and students during the applicable reporting period. Programs with no Massachusetts graduates or students for the required time period are not listed.

Program	Completions	Enrollment	Graduation Rate	Graduation Time
Master of Construction Management	0	1	0.0%	NA

YOUR LOAN DEBT

You must repay money that you borrow as student loans to pay for this program, including interest. You must repay any portion of the money you borrow to pay for this program, even if you fail to complete or dropout of the program. Failure to repay student loans is likely to have a serious negative effect on your credit, future earnings, and your ability to obtain future student loans.

LOAN NONPAYMENT STATISTICS

36.8% of the 2016 cohort of NewSchool students defaulted on, or failed to repay, their loans. This cohort includes borrowers going into repayment between Oct 1, 2015 - Sep 30, 2016 with repayment measurement through Sep 30, 2018. Massachusetts regulations require NewSchool to include in this calculation students who are in deferral and forbearance, and may not currently be required to repay their loans. Students in deferral and forbearance are not in default per federal financial aid guidelines. NewSchool believes that its 3-year federal cohort default rate (the number of students who have defaulted on, or failed to repay, their loans) of 8% for the 2016 cohort is a more accurate representation of its student loan repayment rate than the calculation required under Massachusetts regulations.

PLACEMENT RATES AND EMPLOYMENT STATISTICS

Massachusetts regulations require that a school who offers any occupational programs must disclose the graduation placement rate of graduates during the last two calendar years who obtained full time, non-temporary jobs in their field of study, and total placement rate of students that enrolled in the program during the last two calendar years who obtained full time, non-temporary jobs in their field of study.

Job Placement		
	2016-17	2017-18
Master of Construction Management	82% (9/11)	87% (13/15)
