

# New English Brewery

## *Axes & Gardens*

Stephen Marucut - Interior Architecture

**ABOUT US**  
**SAN DIEGO**  
**INDEPENDENT**  
**PURE & SIMPLE**

Established in 2007, New English Brewing is a San Diego craft brewery and winner of numerous prestigious awards. We brew standout beers across a spectrum of styles including IPAs, stouts, lagers, and fruit beers. Our beers are brewed with the finest ingredients and we ensure quality and consistency in our brewing process. New English Brewing is lauded by *San Diego Magazine* and *The West Coaster* as "one of the best breweries in San Diego!"

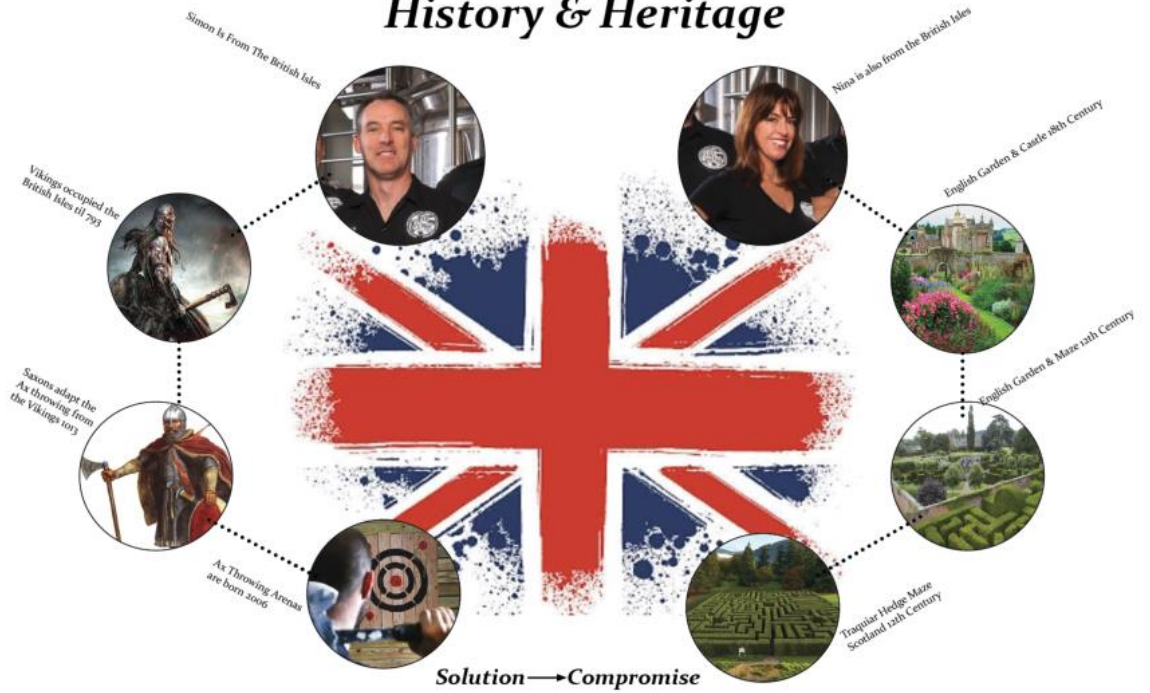

Serving from 15 to 20 taps each in our adjacent tasting rooms - Main Tasting Room & Lounge and Barrel Room - there's something for every craft beer lover here. Giant glass roll up doors lead to a patio and beautiful beer garden, where you can also enjoy a pint. Loads of physically distanced seating both inside and outside. On site dining options include food trucks / vendors that vary daily, so please check our calendar or social media @newenglishbrewing. Dogs and kids are welcome!

New English operates out of a 10,000 square foot facility in San Diego with production, canning, tasting, food, events on-site. In addition to draft, our beer is available in 6-pack cans to-go for sale online or in our tasting room. Curbside pickup and delivery are available. You can also find New English beer on draft at great spots around San Diego.

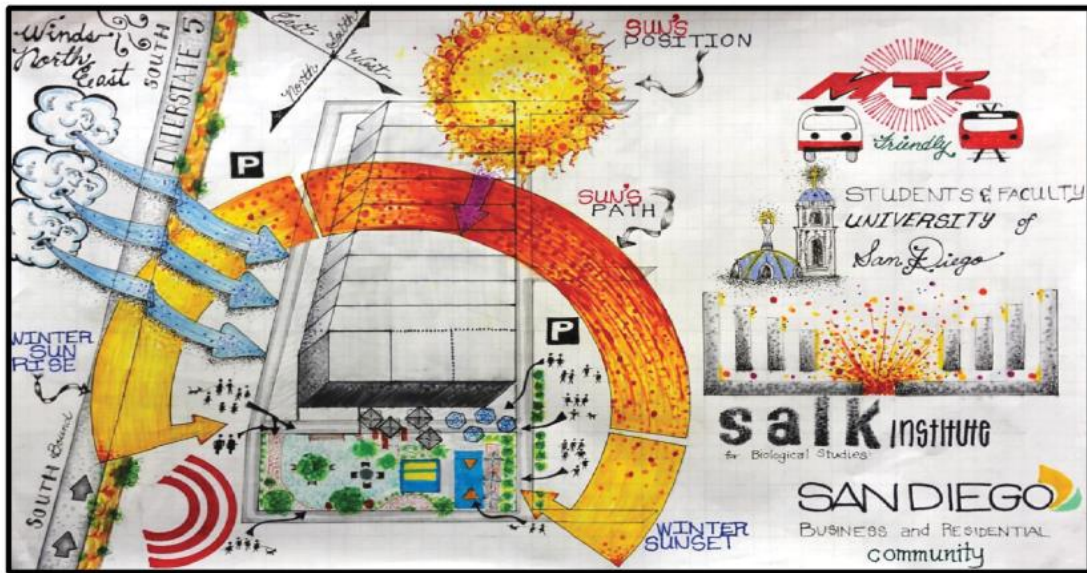

Please note that New English is following state and local requirements for Covid-19 safety.

*San Diego. Independent. Pure & Simple!* That's our motto!

## Interview

How did the "Themes" come to be? **Simon** and his wife **Nina** are the owners. The **Lacey's** hail from the **British isles**. After researching the region's history, Britain was occupied by **The Romans, The Vikings, and Saxons**. These are just a few groups that influenced and settled in Britain. I RESEARCHED an activity that was derived from these groups, **throwing axes** was a skilled art used in battle. Then later made into sport. When collaborating with Simon and Nina, **Simon** wanted to maintain modern style with a touch of British heritage, while **Nina** wanted an elegant lounging area for all the customers to enjoy. **Simon** also requested that the main space retains its availability as an open venue. These requests were all considered in the decision of designing the new interior areas of New English Brewery.

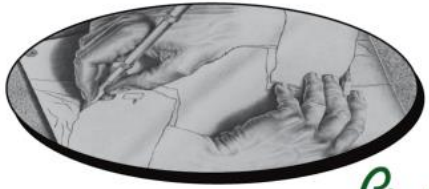

## Design Statement

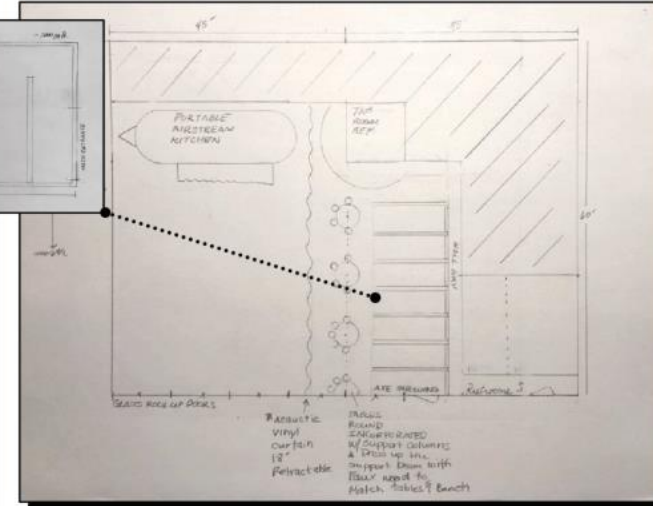

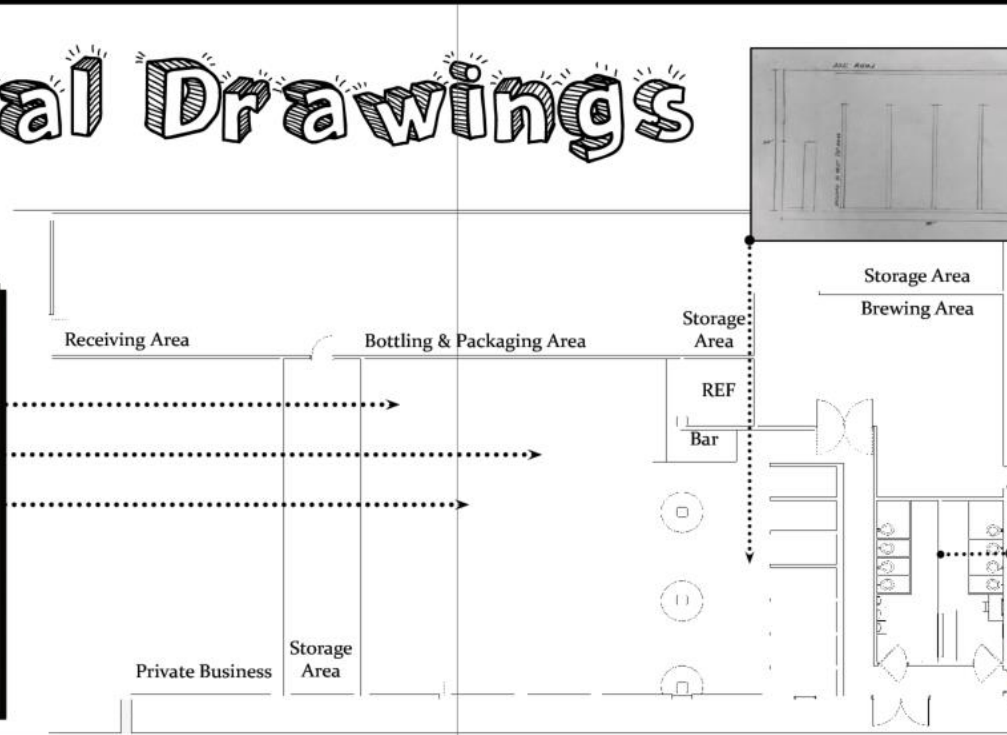

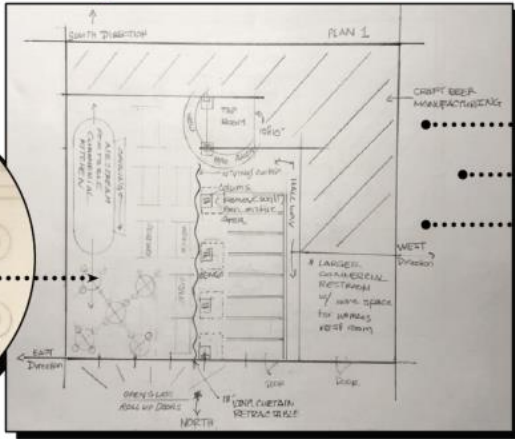

I will redesign New English Brewery's existing interior spaces, with the client and their customers in mind. "Axes & Gardens." Customers will be able to lounge in the **maze garden** area or exterior area. Brewery customers can also enjoy a **full kitchen menu** from the **mobile kitchen Airstream**. New English Brewery will also have an **ax throwing** venue located inside the building. I will redesign the spaces in **stages**. There will be no interruption of these normal business hours. I will incorporate new materials using recycled **PET**. The materials will have **sound deadening attenuation** for enhanced conversations as well as the noise from the ax throwing area of the new interior space. For more privacy, a **Vinyl curtain & Glass** sections will be added to separate the **maze garden area** from the **ax area**. The new materials will display a unique design complementing the new exterior space. I will also install **solar panels** to reduce power consumption and **automatic light windows** on the roof to reduce energy consumption.

# Spatial Drawings

## Garden Lounge

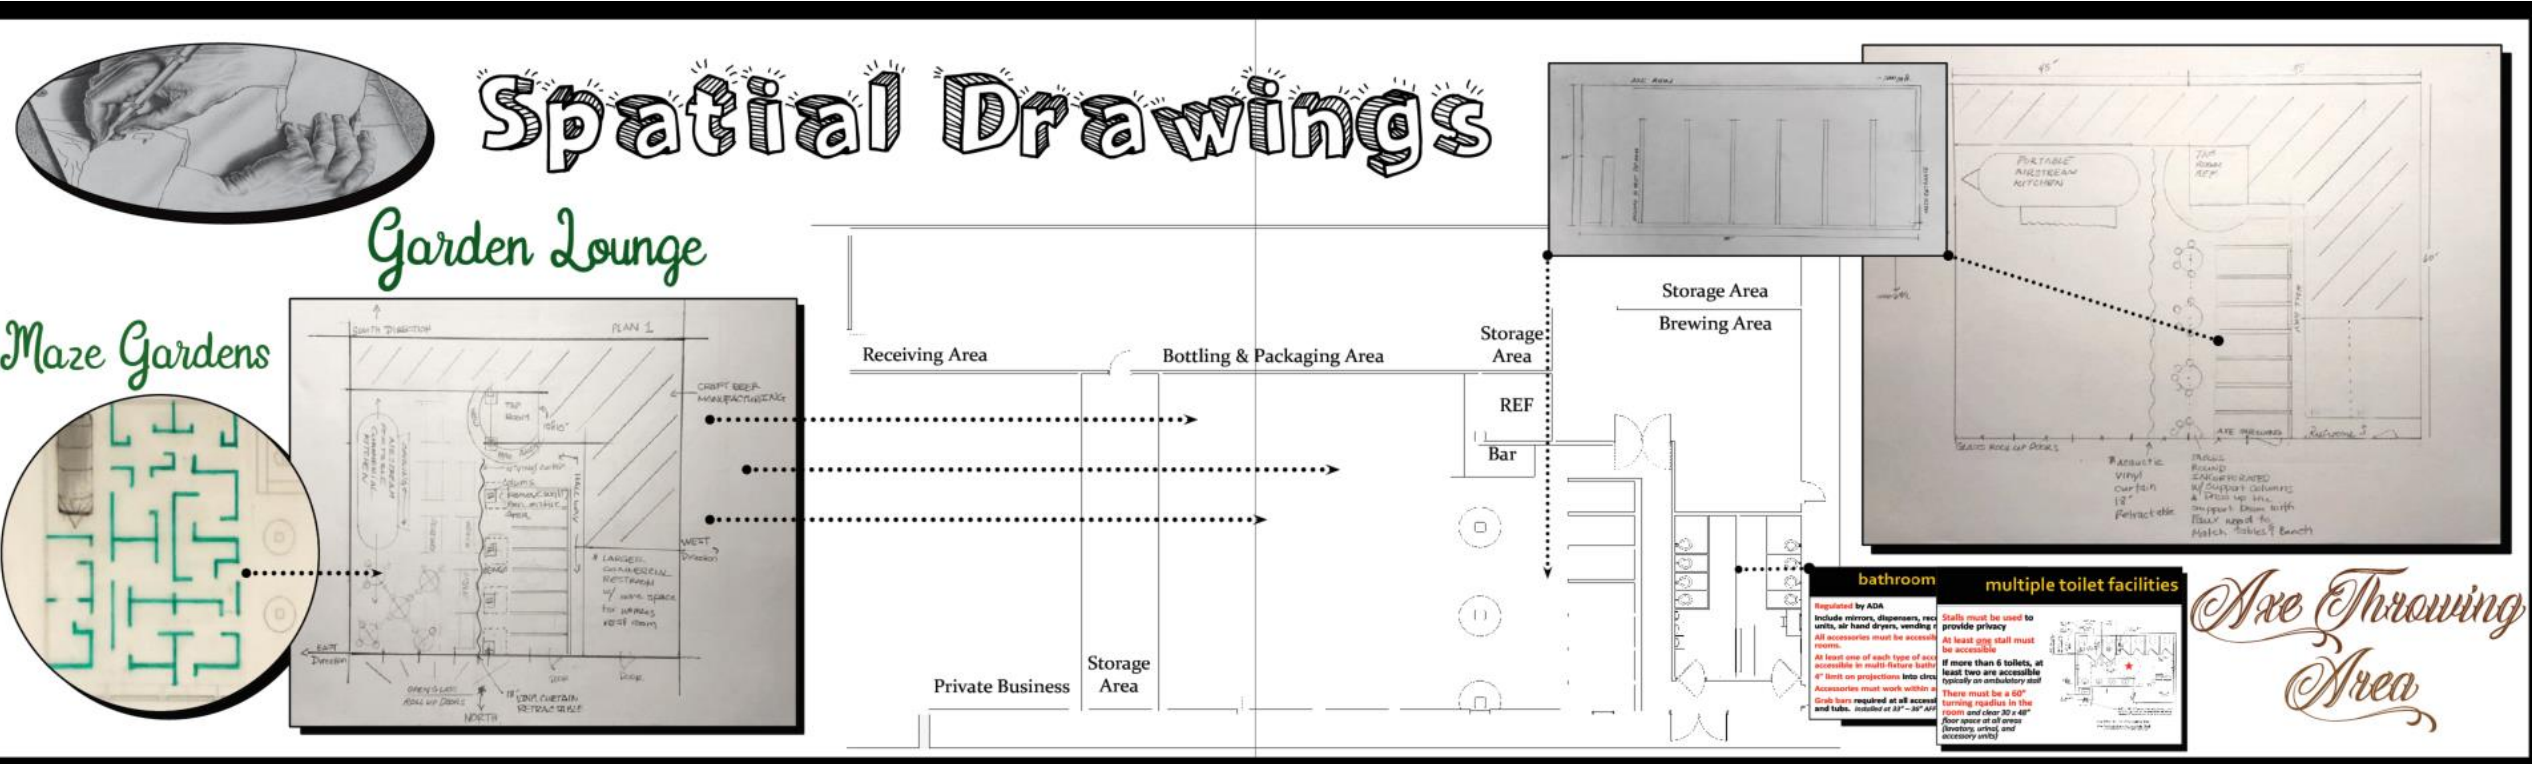

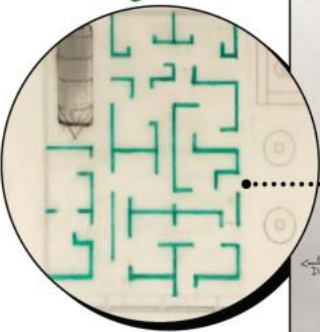

**bathroom** multiple toilet facilities

Regulated by ADA  
 include mirrors, dispensers, new units, air hand dryers, vending machines  
 All accessories must be accessible  
 At least one of each type of area accessible in multi-fixture toilet  
 4" limit on projections into clear  
 Accessories must work within a  
 60" reach zone  
 Grab bars required at all access and exits, installed at 42"-48" AGL

Stalls must be used to provide privacy  
 At least one stall must be accessible  
 If more than 6 toilets, at least two are accessible typically an ambulatory and  
 There must be a 60" turning radius in the room and clear 30 x 48" floor space of all areas (toilet, urinal and accessory units)

ARKTURA

SOFTGRID® Round  
STANDARD PANEL SYSTEM

**Ark**  
The most advanced of SoftGrid® is achieved by our Soft Grid® Acoustic Panel (SOP) panels, with up to 20% superior acoustic control over space and control acoustics in any space with grid-like layout configurations and the high performance acoustic characteristics of Soft Grid®. We offer these solutions in a range of standard panel finishes. The Ark® series, with its available in a wide variety of colors and finishes, including wood grain finishes. See our Soft Grid® finishes for more information.

GRAPHIC PERFORATED INTERIOR ARCHITECTURAL PANEL SYSTEM

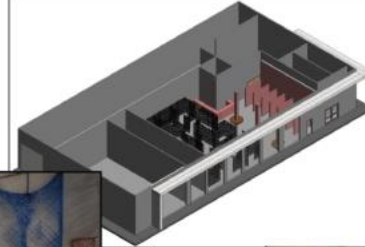

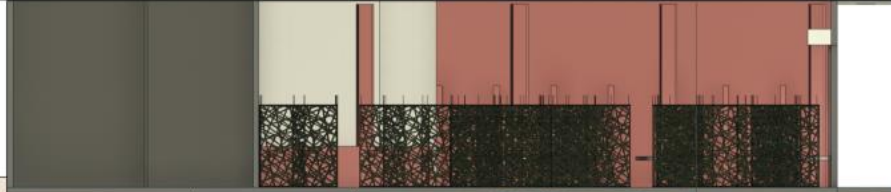

**Ark**  
The Graphic Perforated Panel system offers you a range of perforated surface finishes that can be used in a variety of applications. The perforated surface can be used in a variety of applications, including manufacturing and finishing, where the perforated surface is used to provide a range of finishes, which provides the range of the space design.

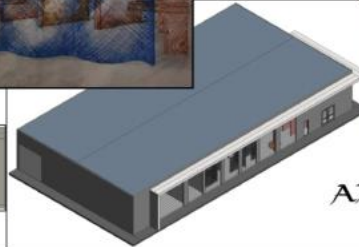

# Perspectives

**KEY LEARNING POINTS:** I found that an abundance of research is key to a robust Design. Having diversity with your hand drawings and digital skills helps you to express your ideas. Time management is key to organizing all your research for your design.
