

HISTORY OF NEWSCHOOL

Our founder, Richard Welsh, started with a dream, seeded in a desire to provide students with an accessible, high-quality architectural education.

Classes were small, just a few evenings a week, inside an unassuming suburban industrial building. Since then, NewSchool has branched out to offer degrees in design and construction, expanded into a bustling urban campus, and welcomed students from around the world.

▶ 1980s

- Richard Welsh founds NewSchool of Architecture in Chula Vista, California

- Campus relocates to vibrant downtown San Diego

▶ 1990s

- Mid-career professionals flock to NewSchool to switch vocations, attracted by afternoon and evening classes

- National Architectural Accrediting Board (NAAB) accredits our bachelor and master degree programs

- First to award architectural master's degrees to women and Hispanic/Latino students

- Ranked as one of the top 5 schools in U.S. for design education

- 1st regionally accredited school in the state of California to be certified and recognized as a "Military & Veteran Supportive Campus"

▶ 2000s

- Named in the top 10 undergraduate architecture schools in the western United States

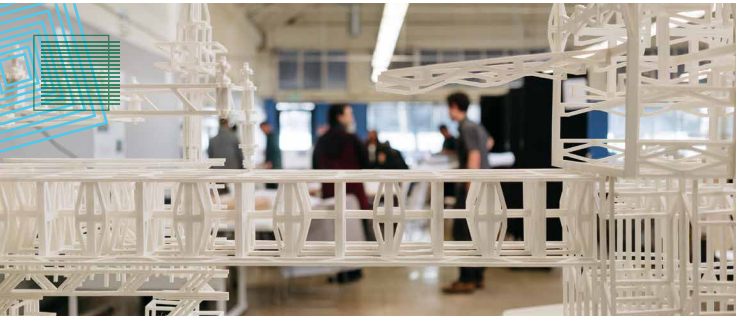

- Recognized as one of the top 25 architecture graduate programs in the country

- Named #2 in nation by Best College Reviews for construction management master's program
