The full time cost estimates shown above are a flat rate based on 12-18 credit hours. Part time students (1-11 credits) are charged per credit for tuition. Your direct costs and your financial aid eligibility may change if your number of credits changes. Always consult your Financial Aid Officer when considering a change in your course load.

If your direct costs exceed the amount of financial aid you will receive, please meet with Financial Aid to discuss your options or make arrangements for cash payments with the Business Office.

**Indirect Costs** are not billed to your student account, but are outside expenses you may incur in your academic year. They are based on whether you live at home or on your own. You may apply for financial aid to cover these costs as well.
