

A 3D architectural model of a city, rendered in white and grey. The left side of the image is highlighted with a semi-transparent yellow overlay. The text 'Get 3rd year placement at NewSchool!' is written in white, bold, sans-serif font over this yellow area. The model shows various building footprints, some with multiple stories, and a prominent, tall, curved structure on the right side. The perspective is from an elevated angle, looking down at the city layout.

**Get 3rd year
placement at
NewSchool!**

Transfer to NewSchool from Palomar College
and get a **15% tuition discount!**

3rd year placement at NewSchool is as easy as 1-2-3

Option 1: Direct Placement in Third Year

For students who have completed the necessary prerequisites.

Option 2: Fall Quarter Studio [Lecture]

For students who have two years of equivalent studio credits, but are missing required lecture course credits.

To make up missing lecture credits, take a special Fall Quarter studio focused on building systems and environmental systems (six lecture credits), fully integrated with a Human-Centered Design Thinking studio. These students will then move on to join the normal flow of third year students in Winter Quarter.

Option 3: Summer Quarter Studio [Studio + Lecture]

For students who are missing both studio and lecture course credits.

To make up missing studio and lecture credits, take a special Summer Quarter studio focused on building systems and environmental systems (six studio and six lecture credits), fully integrated with a Human-Centered Design Thinking studio. These students will then move on to join the normal flow of third year students in Fall Quarter.
